

An experienced, results-driven, and seasoned Project Manager and Business Analyst with over 8 years of experience leading diverse teams to successful project completion. Adept at overseeing the entire project lifecycle, from initiation to closure, with a focus on delivering high-quality results on time and within budget. Known for leveraging strong leadership, communication, and problem-solving skills to drive project success and exceed stakeholder expectations. Experienced with analyzing internal workflow processes to identify areas of enhancement, developing and implementing business development plans, and assessing business requirements.

EXPERIENCE

June 2023 – Present (PROJECT MANAGER)

BYLIGHT PROFESSIONAL IT SERVICES

- ❖ Develop comprehensive project plans, outlining project scope, objectives, timelines, and deliverables, to identify and mitigate potential risks and challenges.
- ❖ Work closely with stakeholders to gather project requirements and ensure alignment with organizational goals.
- ❖ Lead and motivate cross-functional project teams and clearly define team member roles and responsibilities.
- ❖ Foster a collaborative and positive team environment.
- ❖ Communicate project goals, timelines, and progress to stakeholders, and act as the primary point of contact for project-related inquiries.
- ❖ Manage stakeholder expectations and ensure their requirements are met, and provide regular project status reports to stakeholders and leadership.
- ❖ Conduct regular project reviews to assess performance against objectives.
- ❖ Proactively manage changes to project scope, schedule, and costs and develop contingency plans to address potential issues.
- ❖ Conduct post-project evaluations to identify lessons learned.

July 2022 – June 2023 (SENIOR BUSINESS ANALYST)

BYLIGHT PROFESSIONAL IT SERVICES

- ❖ Elicit requirements from Project Sponsor and analyze informational needs, functional requirements, and deliver the following artifacts as needed: User Stories, Business Requirements Document, Use Cases, Process Flow Diagrams, GUI Interface designs (Mock-up screens).
- ❖ Collaborate with developers and subject matter experts to establish the technical vision and analyze tradeoffs between usability and performance needs.
- ❖ Work with diverse stakeholders to elicit goals and requirements and translate them into high-quality deliverables, including analysis of alternatives, use cases, user journeys, business context diagrams, and process flows.

- ❖ Prioritize development backlog, planning releases, planning sprints, and driving requirements/user stories.
- ❖ Monitor projects through the SDLC process using the Agile/SCRUM methodology.
- ❖ Lead and facilitate client-facing and internal team meetings to produce meaningful results, preparing agendas and tracking action items.

May 2016 – July 2022 (BUSINESS ANALYST)

DOXAN TECHNOLOGIES

- ❖ Led requirements elicitation through interviews, workshops, document analysis, and Joint Application Development (JAD) sessions.
- ❖ Collaborated with project managers to track and manage Agile SDLC project progress.
- ❖ Provided business analysis support, recommended process improvements, and helped implement application enhancements.
- ❖ Worked with stakeholders to clarify functional/non-functional requirements and translate them into user stories and acceptance criteria.
- ❖ Acted as liaison between project managers, end-users, and developers to ensure software aligns with business needs.
- ❖ Decomposed large epics into user stories in coordination with business owners and team leads.
- ❖ Designed screen mockups and workflow models to support solution design and user understanding.
- ❖ Led or supported testing efforts, including upgrade and production issue resolution, using tools like Remedy.
- ❖ Facilitated meetings for requirement reviews and clearly communicated requirements to technical teams.
- ❖ Co-led sprint ceremonies with the Scrum Master, shared learnings, and contributed to ongoing Agile improvements.
