SUMMARY

Data Analyst skilled in SQL, Tableau, Power BI, and Python (Panda & NumPy); with dynamic expertise in transforming CRM, financial, and operational data into actionable insights. I have a proven impact of enhancing client engagement and operational efficiency by 30% through impactful data narrative by building KPIs and optimized SQL queries for data exploration analysis. I developed interactive Tableau and Power BI dashboards with significant impact on improving decision making by key stakeholders on budgeting and organization performances. I have strong foundation in accounting, advanced analytics training, and ability to deliver relatable data storytelling that supports strategic planning and decisions.

SKILLS

Programming Languages: SQL, Python (Pandas, NumPy).

BI & Visualization: Tableau, Power Bi, and MS Excel (Power Query, XLOOKUP, Formatting).

Domain Knowledge: Financial Planning & Business Analysis, Budgeting, Forecasting, and variance analysis.

Other: Blockchain Analytics (Dune), Defi trading, CRM database.

WORK EXPERIENCE

Data Analyst, PASBDC (Lead Office), Kutztown, PA

August 2024 - Present

- Extracted, cleaned, and modeled dataset from CRM database; optimize the data by writing complex SQL queries and provided detailed data integrity reports to the director.
- Collaborated with cross-functional teams to support budgeting and performance analysis for PASBDC FY2025 center review for all the 15 centers in Pennsylvania.
- Built interactive dashboards in Tableau to tell data stories to the stakeholders and help with improving PASBDC executive level decision-making.
- Crafted compelling narratives on PASBDC centers providing services to clients outside of their territory, leading to a 30% increase in client engagement and a 15% rise in center-to-clients efficiency rates in FY2024/2025.

Logistics & Operation Analyst SAFA Solutions Ltd, Nigeria

February 2021 - June 2024

- Coordinated and analyzed the supply chain data for supplier efficiency and transportation costs which helps to reduce expenses from 300 naira per item to 185 naira per unit in FY2023
- Developed reporting processes, automated data reconciliation, and documentation to support strategic planning by the regional manager.

Data Entry Clerk Anambra Internal Revenue Service, Nigeria

July 2018 - August 2019

- Led data collection efforts from 7 major markets, enabling digital transformation of tax records.
- Designed excel dashboards that improved tax unit's reporting accuracy and data integrity by 27%.
- Created weekly reports for operation management to improve productivity by 26% in a year.

TEACHING EXPERIENCE

Freelance Tutor: Go-Learn Africa, Lagos, Nigeria

June 2022 - May 2024

- Educated 350+ learners on blockchain fundamentals and web3 technology.

VOLUNTEER EXPERIENCE

PASBDC 2025 Growth Conference, Penn State University, State college, PA

May 2025

- Provided technical support to speakers and managed scheduling breakout sessions.

Grace Bible Church Manna food pantry, Kutztown, PA

November 2024 – June 2025

- Monthly distribution of food items to over 60 households within Kutztown.
