Experience

Data Analyst – Tarkik Solutions: Washington, DC (Apr '23 – Mar '25)

- Contracted with the USDA (FPAC Division), where I'm responsible for **ingesting** and **cleaning** large datasets.
- Create** dashboards and **visualize** data based on derived business requirements using **Power Bi**.
- Develop** and **track** metrics on statuses across **multiple** projects using **Smartsheet**.
- Collaborate with USDA government officials for requirements gathering and project rollout.
- Lead** projects in the development, demo, release & continuous maintenance process.

Business Analyst – Brilliant Corporation: Reston, VA (Apr '22 – Sept '22)

- Contracted for the USDA (FPAC Division), where I **analyzed** sensitive documents for clients from 5+ different sectors.
- Developed spreadsheets in **Microsoft Excel** in order to determine the location and status of documents in over 8,000 files.
- Generated **ad-hoc reports** that showed the level of progress and provided valuable **data** to clients which would go on to save them 2-4 hours of research on a weekly basis.
- Spearheaded portions of the project which led to its **successful completion** within 6 months instead of the projected 8 months.

Escalations Specialist – ID.me: Mclean, VA (Jun '21 – Apr '22)

- Decreased identity fraud for individuals across 25+ states, 6 federal agencies and over 500 name brand retailers.
- Managed cases from high-level executives and the CEO that were time sensitive which aided 50+ clients on a daily basis.
- Utilized tools such as **Zendesk, Jira and Confluence** to monitor and track the verification status of members.

General Support – ID.me: Mclean, VA (Jan '21 – Jun '21)

- Exceeded ticket quotas by **12%** on a weekly basis which quickly decreased the number of overall tickets for the rest of the department.
- Communicated** with members via email, phone, and zoom video calls to provide a solution on issues related to identity authentication.
- Guided clients through the identity verification process, which led them to gain access to services like pandemic-related unemployment, prescription medications and travel discounts.

Member Support Representative – ID.me: Mclean, VA (Aug '20 – Jan '21)

- Validated sensitive documentation in order to verify various members to prevent identity fraud.
- Surpassed expectations for daily verification count from **250 to an average of 320**.
- Assisted in the **early growth** of the company by being one of the top performers in the department which, in a small part, led to the addition of 1,300 employees due to a massive funding of \$100 million dollars and \$20 million in revolving credit.

Certificates

- Google Data Analytics Professional**
- Certified Scrum Master (CSM)**

Education

- Associates in Network and System Administration: Stratford University (Mar '16 – Jun '18)**
