EDUCATION

University of Texas at Dallas – Deans Excellence Scholarship M.S. Information Technology and Management	Richardson, TX May 2024
University of Mumbai B.E. Computer Science	Mumbai, IN May 2021

PROFESSIONAL EXPERIENCE

Cornell Scott – Hill Health Center <i>Operations Analyst</i>	New Haven, CT Nov 2024 – Present
--	--

- Developed and maintained interactive dashboards and reporting solutions using Excel, Tableau, and Power BI to track provider productivity, clinical sessions, and operational KPIs, resulting in a 25% improvement in leadership's ability to make data-driven decisions across multiple departments.
- Collaborated with cross-functional stakeholders including department heads, finance teams to design customized reporting solutions for performance measurement, enhancing transparency and accountability across healthcare delivery units.
- Utilized Epic and other EHR systems to validate data accuracy and integrity, ensuring consistency across clinical and financial datasets and reducing reporting errors by 30% through standardized data quality checks.
- Interpreted complex healthcare data from multiple sources (EHR, billing, claims, pharmacy) and translated findings into actionable insights through executive-facing dashboards, aiding in the optimization of care delivery and financial performance.

Modern IT Solution <i>Business Analyst</i>	Dallas, TX Jan 2024 – May 2024
--	--

- Researched and identified 6 key operational areas for AI integration, such as risk assessment and fraud detection, conducting data analysis and developing tailored algorithms that enhanced risk assessment accuracy by 20% and reduced fraud detection time by 30%
- Analyzed customer data to identify patterns and trends, providing insights that contributed to a 15% increase in customer retention and a 20% boost in cross-selling opportunities
- Administered and maintained project dashboards using tools like Tableau and Power BI, enabling real-time monitoring and reporting, which streamlined decision-making speed by 40%

Design Noise <i>Data Analyst</i>	Mumbai, IN Jun 2021 – Jul 2022
--	--

- Designed market segmentation analysis, boosting targeted marketing effectiveness by 20% with KPIs such as customer lifetime value (CLV), customer acquisition cost (CAC), and churn rate
- Engineered innovative strategies by leveraging pioneering campaigns through comprehensive analytics in digital marketing, propelling sales by 60%, and conducted thorough data analysis and A/B testing for improved campaign performance
- Collaborated cross-functionally to devise integrated solutions, driving a 40% market share increase, and accelerating startup growth by leveraging marketing, web analytics, and social media profiling

PROJECTS

Strategic Marketing Campaign Efficacy Analysis	Dec 2023
---	----------

- Evaluated a marketing campaign's effectiveness by analyzing pre- and post-campaign data, segmenting customers, and visualizing insights with matplotlib and seaborn, driving a 20% boost in engagement and 12% in sales
- Visualized trends and insights through Power BI dashboards, reducing reporting time by 40% and enhancing decision-making for inventory management
- Generated and executed A/B tests to compare the performance of different campaign strategies, leading to a 15% improvement in click-through rates (CTR) and a 10% increase in conversion rates

Fraud Detection System for Financial Transactions	May 2023
--	----------

- Processed transactional data from 1M+ records to identify fraudulent patterns using statistical methods and clustering techniques
- Implemented automated data validation processes using SQL Triggers and Table Checks, reducing data entry errors by 30%

Forward Forecasting of Stock Prices using Machine Learning	May 2021
---	----------

- Analyzed historical stock market data by cleaning and preprocessing 1M+ records, addressing missing values and outliers, which enhanced data quality and improved model accuracy by 15%
- Engineered and implemented predictive models using Linear Regression, ARIMA, and LSTM to forecast stock prices, achieving a 92% accuracy rate in short-term trend predictions
- Visualized forecasting results with interactive dashboards using matplotlib, seaborn, and Power BI, reducing analysis time for stakeholders by 30%

SKILLS & INTERESTS

Data Analysis & Visualization: SQL, Python, Tableau, Power BI, Advance MS Excel, Adobe Analytics, Google Analytics, SAP Lumira
Systems & Tools: Experienced with EHR systems (Epic), Jira, Trello, SAP, Snowflake
Certifications: Alteryx Designer Core, Google Data Analytics, Google AdWords
