

TARUN LAGADAPATI

CHARLOTTE | (984) 500-9307 | tarunlagadapati25@gmail.com

Professional Summary

Detail-oriented and results-driven Data Analyst with over 3 years of hands-on experience in statistical analysis, machine learning, and large-scale data pipeline development. Proven success in improving data accuracy, automating ETL processes, and providing actionable insights to drive business decisions. Strong background in SQL, Python, R, and data visualization tools like Tableau and Power BI. Skilled in cloud platforms (AWS, GCP), big data technologies (Kafka, Nifi, Snowflake), and advanced analytics techniques including A/B testing, time series analysis, and text mining.

Technical Skills

- **Languages:** Python, R, SQL, PL/SQL, NoSQL, Shell Scripting, SAS, STATA
- **Cloud Technologies:** AWS (S3, EC2, RDS, IAM, Lambda, Glue, Redshift, Athena)
- **Data Visualization Tools:** Tableau, Power BI, AWS QuickSight, SSRS
- **Databases:** MySQL, PostgreSQL, Oracle, MongoDB, Amazon RDS
- **Data Warehousing:** Snowflake, Amazon Redshift, Google BigQuery
- **Machine Learning:** scikit-learn, TensorFlow, Pandas, NumPy, Matplotlib, SVM
- **Other Tools:** Apache Nifi, Airflow, Hadoop, Kafka, JIRA, Git, PySpark, Snowflake, Databricks

Professional Experience

Data Analyst

02/2022 to 03/2023

Crusader Works

- Developed and maintained robust ETL pipelines using Apache Airflow and Python, automating data collection, cleaning, and preprocessing tasks to improve accuracy and reporting speed.
- Increased real-time analytics and stakeholder reporting efficiency by 20% through the design of interactive Tableau dashboards based on customer behavior insights.
- Designed and optimized SQL procedures to manage transaction-level data, reducing data query response times by 30% and enhancing downstream data accuracy by 25%.
- Executed predictive modeling using R and Python to identify key purchase behavior factors, enabling marketing teams to increase campaign effectiveness by 12% in six months.

Cloud Intern

03/2020 to 08/2021

AWS

- Migrated legacy on-premise systems to AWS cloud infrastructure (EC2, S3, RDS, Lambda), reducing processing time by 30% and enhancing system scalability.
- Automated data pipelines using AWS Glue and Redshift, enabling faster data availability for analytics teams.
- Implemented IAM role-based access policies across 50+ roles, improving security posture and minimizing access risks.
- Collaborated with DevOps and engineering teams to streamline data access control, ensuring compliance with AWS best practices.

Education And Training

University of North Carolina at Charlotte — Charlotte, NC, USA

Master of Science in Computer Science, Concentration: Data Science Aug 2023 – May 2025

- GPA: 3.7/4.0

Koneru Lakshmaiah University (KL University) — Vijayawada, Andhra Pradesh, India

Bachelor of Technology in Computer Science and Engineering June 2019 – April 2023

- CGPA: 8.56/10
